BE WARY OF THE SHADOW WORLD AROUND US AND KNOW THIS BOOK IS YOUR DEFENCE AGAINST THE DARKNESS.

Much like in your house, shadows can be scary until you turn the light on. The same goes for the online world. Sometimes when we do not know what we are looking at or dealing with, it can be overwhelming and potentially dangerous.

We are here to help you navigate your way around this online world, arming you with your very own knowledge torch.

Together we can light up these shadowy areas of the online world to know what you may soon experience, what to believe online and what to be cautious of. There are times when you may mess up, but we are here to tell you that you are not alone.

We can show you how to get out of those shadows and back into the safety of the light.

This book is the creation of experts who share their experience and knowledge with you, so your world is less at risk of slipping into the Shadow World beyond your device screens...

Plus, you may find a new interest in the cybersecurity world along the way!

**Age recommended 8 to 12 years old*

CAITY RANDALL
& CRAIG FORD

ABOUT THE AUTHORS

Caity Randall is a passionate individual who has strong philanthropic interests and believes with the one life we have been gifted; we should be using it to leave lasting positive impacts on the world. With years of experience and real-world knowledge of the cyber security industry, she has identified that there is a large gap in cyber education and awareness in both the younger generation plus their teachers and guardians. Combining her experiences with her entrepreneurial spirit, author Caity Randall aims to educate and raise awareness surrounding sensitive cyber security and online safety topics in a palatable way for both schools and families with young children.

The 2022 finalist of “The One to Watch in IT Security” award, Caity is a strong voice within the IT industry and strives to be the written voice to empower kids to avoid the shadowy corners of the online world - or if they end up in them, to have the confidence to know they are not alone and how to reach out for help.

Craig Ford is a cybersecurity engineer and ethical hacker. He has a Master’s in Management (Information Technology) and a Master’s in Information Systems Security from Charles Sturt University. He was awarded the AISA (Australian Information Security Association) Cyber security professional of the year 2020 and was elected AISA Queensland branch Chair in 2021.

Craig is a freelance cybersecurity Journalist who is best known for his work on CSO Australia in which he contributed almost 100 cybersecurity articles between 2018-2020. He is a regular columnist for “Women in Security” Magazine and has contributed to the project since its inception in early 2021. He also contributes to Cyber Today, Cyber Australia, Top Cyber News and Careers with STEM magazines. Craig has three previous books, two in the “A Hacker I Am” series: *A Hacker, I Am* and *A Hacker, I Am – Vol 2* which were self-published. These are cybersecurity awareness books which try and help educate everyone on how to be safer in this connected world. As well as *Foresight*, a Cyberpunk, cyber espionage book published through Shawline Publishing.
